

K-LOVE radio serve me and my local community for many hours of the day. I enjoy listening to the up-lifting, inspirational music. I have dozens of family and friends in the local San Antonio area that also rely on K_LOVE radio. Not only does it provide uplifting music and encouragement, but I listen to news as well on my K_LOVE station. The choices for music are not always suited for encouragement and support. I believe that K_LOVE radio fills a need that all of us have at some point in the day and that is to listen to positive feed-back and positive encourageing music. I support K_LOVE financially because I want them to be on the air and I like the music they play and the news cast.
